RYNIXSOFT INTERNSHIP- WEEK 1

DIGITAL TALENT MANAGEMENT SYSTEM

SWETHASUPRIYA AS **UI/UX DESIGNER**

RESEARCH DOCUMENTATION

OBJECTIVE

To understand user needs, identify pain points in talent management process and define a clear UX strategy foundation

TARGET USER

- HR Manger/Admin
- Recruiter
- Employee
- Department Manager

RESEARCH METHODS

- User Interview (HR, Recruiter, Employee)
- Online Surveys
- Competitor Analysis

Reviewed platform like Workday, SAP SuccessFactors, Oracle HCM Cloud

KEY PAIN POINTS IDENTIFIED

- Fragmented employee data
- Manual Excel-based tracking
- Poor internal job visibility
- Resume overload in recruitment
- Lack of real-time performance insights

OPPORTUNITY AREAS

- Centralized role-based dashboard
- Smart skill tracking system
- Transparent internal job portal
- Automated recruitment workflow
- Data-driven workforce analytics

PROBLEM STATEMENT

Organizations lack a unified, user-friendly system to manage skills, performance, and recruitment, leading to inefficiency, low transparency, and poor workforce planning.
